

KHEN ASHLEY D. LIMOS

Centro, Seselangen, Sual, Pangasinan

 +63 961 052 7055 |  ashleylimos06@gmail.com

PROFESSIONAL SUMMARY

Results-driven technology professional with extensive experience in software support, client relations, and project lifecycle support. Proficient in the Microsoft Office suite and various productivity tools. Excels at time management, root-cause analysis, and delivering high-quality solutions in a collaborative team environment.

CORE SKILLS

- Microsoft Word, Excel, PowerPoint
- Strategic Planning and Scheduling
- Time Management
- Verbal and Written Communication
- Video and Photo Editing
- Computer Hardware and Troubleshooting
- Software Installation and Configuration
- Basic Networking (LAN/WiFi Setup)
- Data Entry and Database Management
- IT Support and Help Desk Assistance
- Technical Documentation
- System Backup and Recovery (basic knowledge)
- Programming/Coding
- Mobile Device Management (Android, iOS basics)
- Cloud Platforms Familiarity (Google Drive, Dropbox)

PROFESSIONAL EXPERIENCE

IT Intern / Customer Relations Officer (CRO)

Bureau of Fire Protection (BFP) – Alaminos City, Pangasinan | January 2024 – May 2024

- Assisted in maintaining and troubleshooting computer hardware, software, and network systems.
- Supported daily IT operations, including system updates, file management, and data backups.
- Handled customer inquiries and provided front-line support both in-person and over the phone.
- Managed and organized digital and physical records for efficient information retrieval.
- Ensured the smooth operation of basic office technology such as printers, routers, and telecommunication systems.
- Helped in creating technical documentation and reports for internal use.
- Collaborated with different departments to resolve IT and service-related issues quickly.

PROJECTS

CommUnity Hub

CommUnity Hub is a .NET MAUI-based Barangay Management System designed to streamline administrative tasks in Barangay Seselangen. It features smart document generation, resident management, payment processing, event scheduling, and real-time activity logging, all integrated with a secure SQL database for efficient and organized local governance.

Technologies Used: .NET MAUI, C#, SQL Server, PDFSharp, Syncfusion (optional), MVVM Architecture

Role: Lead Developer, Full Stack Developer,

Key Contributions:

- Designed and implemented modular pages (e.g., Resident Management, Document Generation, Blotter Reports, Payment Processing).
- Integrated SQL Server for data persistence with secure CRUD operations.
- Developed user role management and authentication system (e.g., Admin vs. Secretary).
- Created PDF-based barangay documents (Clearance, Permits, Ordinances) with export and print functionality.
- Implemented activity logging and user tracking for accountability and audit reporting.
- Integrated a calendar system for event creation and tracking.
- Used Singleton pattern and clean architecture principles to ensure scalability and maintainability.
- Added data visualization features for demographics and document analytics using chart libraries.

Finders Keepers

To create a community-driven lost and found platform where users can quickly report and locate missing items. By leveraging geolocation and social verification, the app aims to reduce the frustration of lost belongings while increasing community trust and cooperation.

Functionalities:

Real-Time Posting: Users can easily post details and photos of lost or found items with precise geotagging. Location-Based Alerts: Send notifications to nearby users when an item matching a user's description is reported. Community Verification: Include features that allow multiple users to confirm the legitimacy of a found item, building trust within the community. Social Media Integration: Allow posts to be shared on social media to broaden the search and increase the chance of recovery. Search & Filter Options: Provide robust search functionality so users can quickly filter posts by category, location, or date.

MANGA APP

A simple Manga App for Reading different Manga, Manhwa and Manhwa from Different Sites. Made in Android Studio with Java, SQLite and Extensions.

WEB PORTFOLIO

A responsive and interactive personal portfolio website built using HTML, CSS, and JavaScript. This project showcases my skills, projects, and contact information in a clean, modern design. Features include smooth animations, a dynamic project gallery, and a mobile-friendly layout. Designed to highlight my work and provide an engaging user experience.

AQUATRACK

AquaTrack is a web-based Water Billing and Management System designed to streamline water utility operations, including customer account management, meter reading, billing, and payment tracking. The system provides a customer portal where users can log in to view water consumption, bills, and payment history, while administrators and staff manage readings, billing, and reports. The system also integrates SMS notifications for billing updates, payment confirmations, and overdue reminders, supported by a centralized MySQL database for efficient data management and record tracking.

Technologies Used: PHP, MySQL, JavaScript, HTML, CSS, Bootstrap, SMS API, Laragon, ngrok

Role: Full Stack Developer

Key Contributions:

- Designed and developed the customer management, billing, meter reading, and payment modules.
- Implemented role-based access control for Admin, Staff, and Customer accounts.
- Developed automated billing calculation based on water consumption and meter readings.
- Built customer portal for viewing bills, payment history, and water usage records.
- Integrated SMS notification system for billing alerts, payment confirmations, and overdue notices.
- Designed and managed MySQL database structure with relational tables and CRUD operations.
- Implemented search, pagination, and reporting features for efficient record management.
- Deployed and tested the system locally using Laragon and enabled remote access using

ngrok.

- Applied audit logging and activity tracking for system actions and record changes.

AWARDS AND CERTIFICATES

- Capstone of the Year 2024
- Best Code Quality 2024
- Best Client Feedback 2024
- Best Visual Design 2024
- Best UI and UX 2024
- Outstanding Presentation 2024
- Best System Design 2024
- Java Fundamentals Certificate 2024
- CodeFest 2024 Champion
- Champion Vlog Making Contest Mulat Estadistika 2021

EDUCATION

Information Technology Diploma

Graduated with High Honors

STI Alaminos | 2025

Senior High School Diploma

Graduated with High Honors

Sual National High School | 2021
